PROBLEM STATEMENT

Title : Smart Farmer - IOT Enabled Smart Farming Application

- **The growth of the global population coupled with a decline in natural resources, farmland, and the increase in unpredictable environmental conditions leads to food security is becoming a major concern for all nations worldwide.**
- **To achieve this objective, we discuss the vision of IoT-enabled smart agriculture to improve the quantity and quality of agricultural products.**
- **IoT devices provide information about nature of farming fields and then take action depending on the farmer input.**
